Welcome to Student Management System

As students visits the official web portal of the board from different places to know their details at the same time the server becomes down and will not be accessed very soon. In this type of situation student management system can be used to VITW students

Features:

- Students can view their timetables of their semisters.
- Track student attendance and performance over time.
- A student can check their practical marks
- A student can check their unit marks.
- A student can check your final marks.
- Frequent updates of student information.
- No server issues

we will provide our student result management system with better experience to know your scores

hope you satisfied with our portal.If you have any quieries,please contact us:

Email: vitwbatch13@gmail.com

landline number : 751-320-0000

5.Help.

Welcome To The Help Center

As students visits the official web portal of the board from different places to know their details, they may not get proper information becuase of not knowing how to startup with this platform (as a fresher),at the same time the server becomes down and will not be accessed very soon. In this type of situation this Help centre can be used to VITW students.By visiting of this help centre.Students may get information about:-
